

Diversity, Equity & Inclusion Statement

You are welcome to Lorenzo's House for all of who you are. Our platform radiates light for families walking with, or have walked with any form of younger-onset dementia—our unseen, misunderstood and under-resourced. The more voices we have represented and amplified through our mission, the more we build an alliance, cure isolation, and create dementia justice. Bring your personal experience, your perspectives, and your background. We are all learners at Lorenzo's House and believe that our differences will empower and revolutionize the way we think about, and experience dementia as a society. Only together will we bring dementia justice.
